The four-day International Programme on “Cooperative Governance for Women Board of Directors of Cooperatives and Rural Financing Institutions”, jointly organised by NCUI, CICTAB and NIRB, concluded successfully on 21 November 2026.

As part of the programme, participants undertook a study visit to the District Central Cooperative Bank (DCCB), Bengaluru, to gain practical insights into the functioning of cooperative banking institutions, their governance practices, operational mechanisms and role in rural financial development. The visit helped participants connect the concepts covered during the training sessions with practical institutional experience.
